Objective
Seeking a Web Developer position

Education
California State University, Fresno
Bachelor of Science in Computer Science

Skills and Tools
React, Javascript, Redux, Styled-Components, TypeScript, GraphQL, CSS, Ruby on Rails, SQL, Git, Github, Bootstrap, Heroku, Firebase, Figma

Work Experience
AlphaWorks, Fresno, CA
React Developer Apprentice, February 2022 to Present
- Healthy Lifestyle Website – Worked remotely with teammates leveraging Github to develop a website built with React and implemented multiple API's. I was also responsible for implementing redux.
- Business Website - Collaborated with UI/UX designer to develop a demo website for a business. Based off designs in Figma I was able to create the website using React.
- Mancala Video Game – Tasked with creating a game I made Mancala using React and Styled-Components

KMPH-KFRE, Fresno, CA
